The fibre used is high-density (HDPE). This material has a high resistance to the UV rays and other atmospheric agents. It is washable, recyclable, non-toxic and environment-friendly. This fiber has been made exclusively for us and has undergone test regarding the resistance to the bad weather, humidity and rub resistance.

The fibre used is high-density (HDPE). This material has a high resistance to the UV rays and other atmospheric agents. It is washable, recyclable, non-toxic and environment-friendly. This fiber has been made exclusively for us and has undergone test regarding the resistance to the bad weather, humidity and rub resistance.

FABRICS

Technical specifications:

Composition	100 % Olefin
Width (cm)	150
Weight (gr/m2)	238
Abrasion	10,000

Physical properties

No	Description	Result
1	Colorfastness to lighth (max 8)	7-8
2	Weatherability (Hours)	1.500
3	Colorfastness to rubbing, dry and wet	Pass
4	Colorfastness to chlorinated pool water (max 5)	4-5
5	Colorfastness to sea water (max 5)	4-5
6	Water repellency (max 100)	80
7	Flammability	Pass
8	Anti mildew	Pass
9	Pilling resistance (max 5)	5
10	Seam slippage	Pass
11	Tear strength	Pass
12	Tensile strength	Pass

Sunproof®, as the premium quality fabric, has been thoroughly tested and proven internationally for its reliability, strong color fastness and safety. We proudly present Sunproof® Sling, a fabric which provides incomparable performance: strong, breathable, vibrant and durable (strong tear resistance and excellent resistance to ultraviolet, rays and mould). All Sunproof® fabric is Oeko-Tex certified. We care for your health. (Between our fabric collection choose your favorite to create your own ambience)
